

## ■ **PW-Saw** *precision weight* **AUTOMATIC BANDSAW WITH WEIGHT CONTROL**

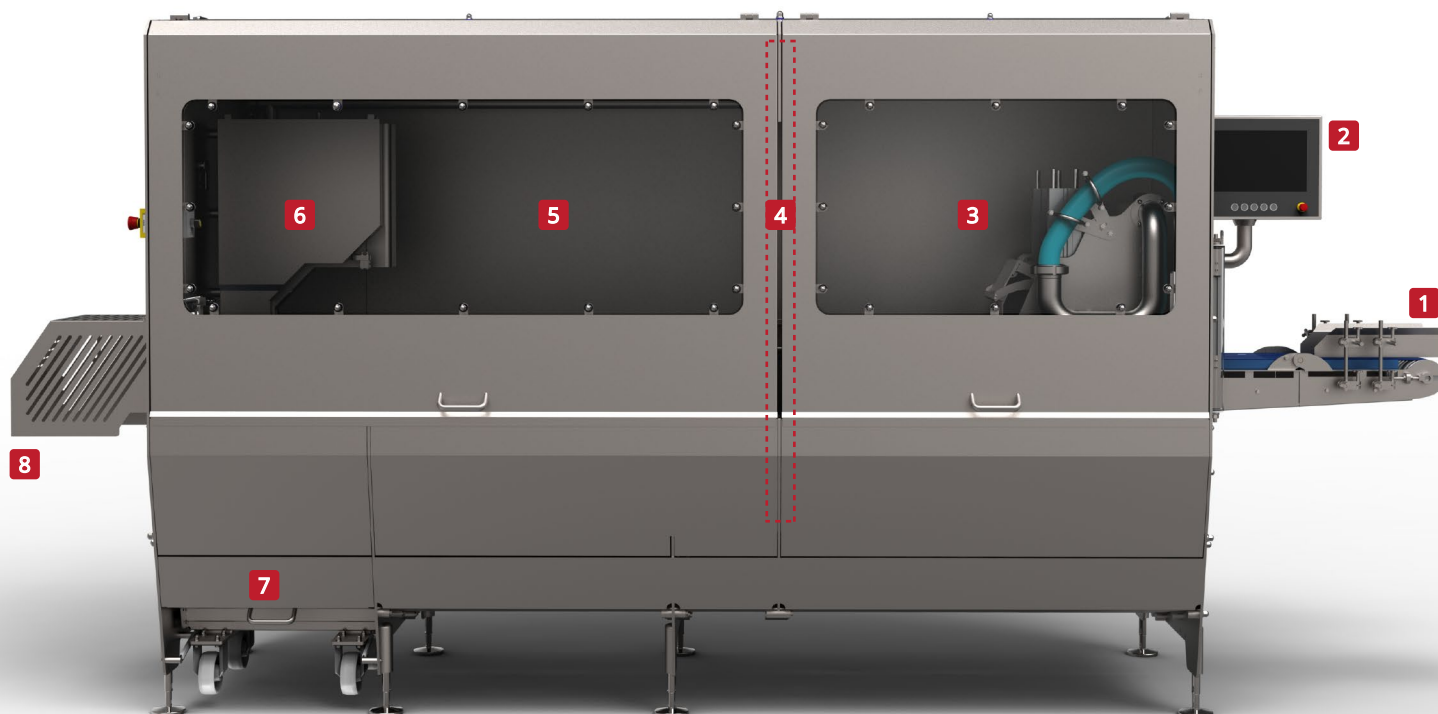

Continuous automatic band saw that brings in a scanning system that achieves precision weight slices in accordance with weight-thickness parameters previously set.

PRECISION EFFICIENCY SAFETY  
HIGIENE QUALITY OF THE CUT SAVING

- ▶ For **frozen meat and fish** and for **fresh\* bone-in products**
- ▶ **Continuous operation**, no need to stop in order to load the product
- ▶ **Hygienic design** for an easy cleaning process
- ▶ Perfectly adjustable cutting speed which ensures **high quality cuts**
- ▶ **Completely safe operation** (fully closed machine)
- ▶ Cutting process with **band saw**
- ▶ **Versatile programming**
- ▶ Possibility of cutting at fixed thickness
- ▶ User friendly interface

\* Under previous study

- 1** Product inlet belt
- 2** Control touch screen
- 3** Product gripping area
- 4** Product scanning
- 5** Product cutting area
- 6** Band saw
- 7** Saw dust collection
- 8** Final product outlet

## TECHNICAL FEATURES

### Machine dimensions (L x W x H)

4200 x 1300 x 2050 mm

### Machine width with open doors (W)

3500 mm

### Max. measurements of produce (L x W x H)

700 x 250 x 250 mm

### Compressed air

Pressure 6 bar (10l/compl. cycle)

### Machine power

4 kW

### Band saw blade

2680 x 16mm
